PROFILE

Computer Science Engineering graduate seeking entry-level Frontend / Software Developer roles. Strong foundation in web development, REST APIs, and programming with hands-on project experience. Motivated to learn and contribute to real-world software solutions.

EDUCATION

B.E – Computer Science and Design	2022 – 2026
Karpagam Academy of Higher Education	CGPA: 9.05
HSC	88%
SSLC	77%

TECHNICAL SKILLS

- **Programming:** C, C++, Java, SQL
- **Frontend:** HTML, CSS, JavaScript, React
- **Core Skills:** REST API Integration, CRUD Operations
- **Tools:** Git, GitHub
- **AI Tools:** ChatGPT (Code Debugging & Assistance)

PROJECTS

Placement Preparation Portal (API-Based)

- Developed a web application for placement preparation using REST APIs
- Integrated aptitude and technical quizzes with real-time score tracking
- Designed user-friendly interface for better experience

Task Management Web Application

- Developed a task management application using React for efficient task tracking
- Implemented add, delete, and update features using CRUD operations
- Integrated LocalStorage to persist user data across sessions
- Designed a clean and interactive user interface for better user experience

INTERNSHIP

Software Intern – Ether Infotech

10 Days

- Assisted in development, testing, and debugging of web applications
- Improved application performance and usability through collaboration

CERTIFICATIONS

- Google Cloud Career Launchpad – Cloud Engineer Track
- HackerRank Java (Basic)
- National Competency and Employability Test (NCET)

ADDITIONAL INFORMATION

Areas of Interest: Data Analysis, Software Development, Cloud DevOps
Languages: English, Tamil
