

MANI KANDAN T

RPA Developer | UiPath & SQL Expert

+91 9655567259

maniguru812@gmail.com

Chennai, India

SUMMARY

Seasoned RPA expert with 7 years of automation experience, including 5 years in UiPath development and 2 years as a Data Analyst. Specializing in SQL-driven process optimization, I have a proven ability to design, deploy, and maintain efficient software robots that streamline business workflows and maximize operational efficiency. Recognized for pioneering automation best practices and mentoring talent, I am committed to driving continuous improvement within organizations.

EXPERIENCE

Expert UiPath Developer

DHL Global Freight Forwarding

- 09/2022 - PresentChennai, India
- Contributed to the architecture and development of the organization framework, enhancing system scalability and alignment with business objectives.
 - Provided project architecture guidance and best practices for consistent UiPath and database implementation across development teams.
 - Led and managed L1 and L2 support teams, ensuring timely issue resolution and optimizing service delivery for enhanced customer satisfaction.
 - Developed complex stored procedures, views, and table types to improve data management and query performance.
 - Developed Power BI reports to analyze process volumes, aiding support teams in identifying volume imbalances.
 - Migrated processes from Windows Legacy to Windows Compatibility and transitioned from Classic to Modern folders, improving system performance and workflow integration.

Programmer Analyst

Cognizant Solutions

- 11/2019 - 08/2022Chennai, India
- Utilized UiPath Studio for bot development and debugging, and managed deployments through UiPath Orchestrator.
 - Analyzed existing processes to determine automation feasibility using UiPath and Python.
 - Performed data cleansing and manipulation with Pandas for large datasets, ensuring validation and processing according to client requirements.
 - Extracted data from various sources, including web applications, Windows applications, PDFs, images, and web pages, and exported it to databases and Excel.
 - Identified and communicated technical infrastructure requirements for designing RPA solutions adhering to standard principles.

Associate Analyst

Ugam Solution

- 01/2018 - 05/2019Chennai, India
- Analyzed client requirements and delivered automated testing scripts in IBM SPSS Data Collection Base Professional.
 - Processed survey response data from the Dimensions platform and tested reports.Utilized Random Data Generator (RDG) to analyze data based on client requirements.
 - Conducted base size analysis, quota management, OE coding, weighting, and statistical testing.
 - Developed reusable, efficient, and scalable data processing modules, transforming input files (.sav) to SPSS, .csv, or Excel formats.
 - Employed DM query for manual data checks.
 - Created automation for Online QA Query Sheet using Python (Flask) and optimized Excel formulas to enhance productivity.
 - Identified and communicated technical infrastructure requirements for designing RPA solutions adhering to standard principles.

SKILLS

UiPath	SQL	Excel VBA	Power BI
Power Apps	Python		
IBM SPSS Statistics			

CERTIFICATIONS

- RPA Advance Developer Foundation in UiPath
- Automation Developer Associate Training Assessment

KEY ACHIEVEMENTS

- Automation Framework Optimization

Revamped existing automation framework, which resulted in a handling multiple use case scenarios and reusability.
- GSC Excellence

Honored by DHL Global Freight Forwarding for exceptional contributions to automation initiatives and outstanding on-time delivery.
- The Ranger Team Award

Successfully automating the highest number of Full-Time Equivalents (FTE) in a single year, demonstrating a significant impact on operational efficiency and productivity.

EDUCATION

Bachelor of Computer Application

Madurai Kamaraj University

07/2014 - 04/2017Dindigul, India

INTERESTS

- Continuous Learning and Improvement

Dedicated to continuous professional development and staying updated with the latest industry trends and automation tools.
- Open Source Contributor

Actively contributes to open source projects, particularly those related to automation frameworks and tools.
- Tech Meetup Enthusiast

Enjoys attending tech meetups and conferences to network with peers and share knowledge, especially within the automation space.
